

IndLinux meeting: 16th, 17th May, 2009.

Redhat offices, Pune.

A meeting of the various teams associated with IndLinux will be held at the offices of Redhat Inc., Pune. Broad objectives of the meeting are to have all teams touch base with one another, and work together to chalk out a roadmap for work over the next year. There will be three tracks over the two days of the meeting, with two of these always running in parallel: (a) Localisation track, (b) Documentation track, and (c) Code development track. Specific objectives, and where possible, immediate deliverables for the various components of each track will be set before the meeting.

Travel for the meeting is sponsored by the National Internet Exchange of India (NIXI), and Redhat is kindly sponsoring board and lodging, as well as making meeting space available at its office.
